
THE
PAUL DAVIS
PARTNERSHIP

ARCHITECTS & PLANNERS

November 26, 2001

Mr. Don Locke
President
Tombleson, Inc.
PO Box 1388
Salinas, CA 93902

Dear Don,

I want to personally thank you and Tombleson, Inc. for a job well done on the recently completed Council Chambers addition to the Greenfield City Hall.

It was a pleasure to work with your firm and its commitment to the project helped contribute greatly to its success. As architects in this community for many years, our firm has had the opportunity to work with Tombleson Inc. on a variety of projects. It has been our experience that, as the general contractor, you contribute to each project as a willing member of the construction team process and sought to provide the most coordinated and cost-efficient project within the goals and design concept of the owner.

Your company has a cooperative spirit in seeking solutions and alternatives, always maintaining the lead in the coordination of the construction process. I was most impressed by the ability of your staff to be consistent in this mindset, from the project manager to the carpenter on the job. Everyone we dealt with has been capable and the projects turned out better than imagined because of their ability and expertise.

Again, thank you for contributing to such a successful project for the City of Greenfield and I look forward to our next job together.

Sincerely,

Paul W Davis, AIA
