

LETTER OF RECOMMENDATION

DATE: November 20, 1996

To Whom It May Concern:

In the twenty five years we have been engaged at Salinas Valley Memorial Hospital, we have had the opportunity to work with Tombleson, Inc. as general contractors on several construction and renovation projects. It has been my experience that Tombleson has always presented themselves as highly qualified and efficient in both their in-house support staff activities and with their on-site construction team. They are conscientious and far-sighted in their efforts to look out for the needs of the client and look forward in search of potential problems. I would highly recommend their company as one of the more outstanding construction companies in Northern California.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barry Mosesman', written in a cursive style.

Barry Mosesman, A.I.A.
President
