Health Clinic
Fort Hunter Liggett, CA

Tombleson, Inc.
651 South Sanborn Road
Salinas, CA 93901

Gentlemen:

During 1982 your firm was contracted to construct a Health Clinic at Fort Hunter Liggett under the supervision of this office.

I would like to take this opportunity to extend my congratulations on a job well done. The project was of a complex nature including installation of Government Furnished Equipment which required close coordination from your personnel. Active participation by your superintendent and Quality Control personnel insured timely completion of the project turned over to the Using Agency relatively deficiency free.

You are also commended for your excellent Safety record during construction. Your receiving the monthly Good Housekeeping Award for all projects administered by this office twice during your contract reinforces your commitment to a clean and safe project working environment.

This office looks forward to working with you on future projects.

Sincerely,

ROBERT J. CARNS
Resident Engineer
Authorized Representative of the
Contracting Officer
