RE: Tombleson, Inc.

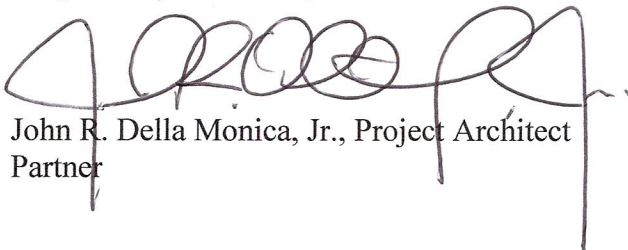

To Whom It May Concern:

Our firm has just completed an eighteen month long health care project with Tombleson, Inc. as general contractor. Our client for the project was a public health care district, which by law required a competitive bidding process to award the project verses a negotiated relationship.

From the awarding of a contract to the completion of the project, Tombleson Inc., was only concerned with moving the project forward with their own forces while orchestrating all of the related subcontractor's efforts. By requirement, the project was permitted by the State of California. Under the scrutiny of full time on site inspectors, site visits by state officials, owner's representatives and our own visits; we experienced nothing but a professional and personal, business relationship with the superintendent, project manager and ownership.

We look forward to the opportunity to work with Tombleson, Inc., again regardless of project type or scope. Should you have any specific questions regarding this letter or Tombleson, Inc., please do not hesitate to contact me.

Respectfully submitted,

John R. Della Monica, Jr., Project Architect  
Partner
